FLYING WITH CONTROL?

A stylized black silhouette of a pilot sitting in a cockpit. The pilot's head is replaced by a large question mark. The cockpit is filled with various control panels, buttons, and dials.

Get to know
the rules.

IMPORTANT SAFETY INFORMATION

Congratulations on your purchase. We hope you have a lot of fun with it but there are just a few things you need to remember for everyone's safety.

You must only operate this aircraft in your line-of-sight in daylight. **Don't let it get too far away from you.**

You must not fly closer than **30 metres** to **vehicles, boats, buildings** or **people**

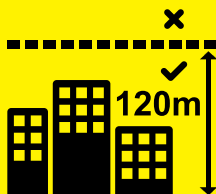

30m

You must not fly over **any populous area**, such as beaches, other people's backyards, heavily populated parks, or sports ovals where there is a game in progress

If you are in controlled airspace, which covers most Australian cities, you must **not fly higher** than 400 feet (**120 metres**)

You should not fly within **5.5 km** of **an airfield**.

It's illegal to fly for money or economic reward unless you have an unmanned operator's certificate issued by the Civil Aviation Safety Authority (CASA).

Safe and happy flying!
